Nook Tips

To turn on/off, hold the button in on the left hand side at the top. If that doesn't turn the power on, it may need to be charged.

Use the slide bar at the bottom of the touch screen to "open" the window.

The first thing you will need to do is connect to the wireless:

1. Turn on Nook
2. Press the Nook button and select Settings
3. Select Wireless
4. Select the wireless location that you want to use
5. Log in if applicable
6. Press the Nook button to go to a different screen

To see what’s available in the Nook’s library press the Nook button and select library. Once you are in the library you can select any book to look at it.

To scroll through different screens or pages in a book on the Nook you must do the following:

- To go down a page in the library – slide your finger from the bottom of the touch screen to the top
- To go up a page in the library – slide your finger from the top to the bottom of the touch screen
- To turn a page – slide your finger on the touch screen from right to left
- To go back a page – slide your finger on the touch screen from left to right

To get to the menu screen within a book to change font, brightness, search, skip pages, etc. tap in the middle of the page. The menu will pop up at the bottom of the screen. Select whatever it is you would like to do.
