Copyright Policy and Procedures
Faculty Projects
Supported by
J ewell Educational Fund

Faculty projects funded by the Jewell Educational Fund are not only supported financially by the College but often are also supported through the faculty member’s use of the College’s resources, equipment, and/or materials. Therefore, the College maintains a legitimate interest in the final product. Unless otherwise agreed upon in advance, the use of institutional monies and other resources will create a joint (50/50) ownership of both the final product and the copyright. In such a case, the institution may choose to exercise its control over the product by using the product to further the institutional mission of the College without further permission of the individual developer (or development team). The individual developer (or development team) retains the right to use the product in his/her teaching, to present the product as the result of his/her work in appropriate settings, and to take a copy of the product to be used in other institutional settings if he/she chooses to leave Baker College.

If the individual developer (or development team) chooses to seek commercial outlet of these materials, he/she may only do so with the express written permission of the President of Baker College. Any proceeds that result from commercial development of such materials will be divided such that the institution maintains a 50% share of proceeds, to compensate for financial support and the use of other College resources. The remaining 50% of proceeds will be distributed equally among all co-developers.

By signing below, I agree to comply with the above policy and procedures.
